Strong Q4 expected, estimates up

The share has lost some 15% since mid-October due to a disappointing Q3. Current levels offer an attractive entry point in light of an intact equity story in the Financial Service Providers segment, which features the Europace mortgage brokerage platform. Moreover, Q4 16 EBIT is seen up 27% yoy (adj. for insurance one-off of EUR 0.9m in Q4 15) as fears of rising interest rates prompt clients to refinance existing loans and/or close transactions before year-end, which supports all of HYQ's business units. Preliminary 2016 figures are due March 13, 2017.

Financial Service Providers (approx. 65% of group EBIT): 18% estimated average growth ahead. Hypoport is the leading online mortgage brokerage platform in Germany with an estimated 18% market share, and is aiming for 50% in the medium term. Europace's market share is strongest amongst independent mortgage brokers (50%). Future growth is expected to stem from a growing presence in the private banks (current 33% market share) and public banks segments (current 2% market share). Combined, these segments account for 60% of Germany's EUR 240 billion mortgage market. The unique selling proposition of Europace: a) independence; b) its open source nature, which enables distribution partners to use their own lenders; c) technological edge - marketplace competence means that an estimated EUR 8m is spent annually on improving the software for better processing times, training times, user interfaces. A third version, already in the pipeline, could feature pure online options, all of which help banks cut costs. While gradually rising interest rates should not influence client decisions to purchase a home, declining asset prices could mean declining volumes. Nevertheless, buying an apartment in Germany for EUR 3,000 /sgm vields EUR 2-3/sgm/month in financing costs, which is still far less expensive than rent of more than EUR 10/sgm.

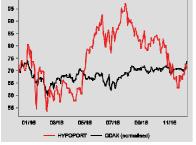

Institutional Clients (30% of group EBIT). This smaller business saw EBIT plunge 25% in Q3. Despite low deal flow, the company seems to have invested in resources. Structurally, demand for independent advice is strong amongst housing associations or municipal investment companies. However deal flow is volatile and 70% of divisional revenues is deal-related (brokered loans). With institutional clients reacting early to seek refinancing amid rising rates, we expect a rebound in profitability in Q4, with EBIT seen up 36% sequentially at EUR 1.9m.

We maintain our Buy recommendation PT EUR 115.0, based on DCF method, 63% upside. Potential bolt-on acquisitions in the real estate appraisal business and insurance marketplace offering (each in the single-digit million Euro bracket) should provide further thematic support.

Analyst Felix Ellmann Analyst

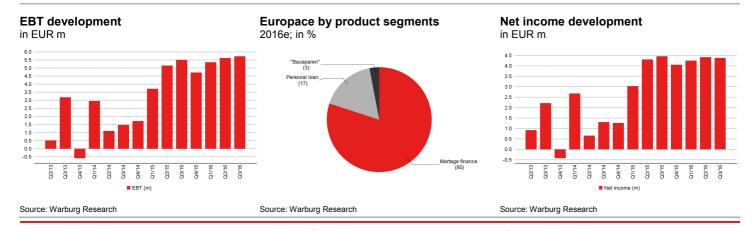

Company Background

- The company, founded in 1999, is specialised as a property financing intermediary
- With Europace, Hypoport operates the largest German internet platform for property financing and similar products
- Under the Dr. Klein brand, Hypoport operates a franchise system of stationary advisors
- Hypoport is also in a leading position in the area of institutional property financing (also under the Dr. Klein brand)
- An advanced level of technology is shown in all segments (fintech)

Competitive Quality

- The online marketplace for property financing operated by Hypoport (Europace) is the largest of its kind in Germany
- As the number of affiliated suppliers is decisive for marketplaces of this type, this forms a central competitive advantage and a considerable market entry barrier for third parties.
- The Dr. Klein business segments (private clients) benefits from market access over Europace but also from the many years of experience in the area of property financing
- Dr. Klein has regional presence (200 branches) and, in this way, achieves customer proximity.
- Most importantly however Dr. Klein is strongly focused (mainly property financing) and neutral (with offers from every provider). Other financial sales teams or retail banks normally cannot afford both.

- The growth anticipated for Hypoport is based on robust business development in all segments
- Financial Services (Europace) in particular offers systematic potential for economies of scale and margin growth
- On this basis the group assumes a positive long-term margin trend
- Based on a sophisticated regional dispersion of tax obligations a low tax rate is assumed long term.

DISCLOSURE ACCORDING TO §34B OF THE GERMAN SECURITIES TRADING ACT (WHPG), THE ORDINANCE ON THE ANALYSIS OF FINANCIAL INSTRUMENTS (FINANV) AND MAR INCL. COMMISSION DELEGATED REGULATION (EU) 2016/958

The valuation underlying the investment recommendation for the company analysed here is based on generally accepted and widely used methods of fundamental analysis, such as e.g. DCF Model, Free Cash Flow Potential, Peer Group Comparison or Sum of the Parts Model. The result of this fundamental valuation is modified to take into consideration the analyst's assessment as regards the expected development of investor sentiment and its impact on the share price.

Independent of the applied valuation methods, there is the risk that the price target will not be met, for instance because of unforeseen changes in demand for the company's products, changes in management, technology, economic development, interest rate development, operating and/or material costs, competitive pressure, supervisory law, exchange rate, tax rate etc. For investments in foreign markets and instruments there are further risks, generally based on exchange rate changes or changes in political and social conditions.

This commentary reflects the opinion of the relevant author at the point in time of its compilation. A change in the fundamental factors underlying the valuation can mean that the valuation is subsequently no longer accurate. Whether, or in what time frame, an update of this commentary follows is not determined in advance.

Additional internal and organisational arrangements to prevent or to deal with conflicts of interest have been implemented. Among these are the spatial separation of Warburg Research GmbH from M.M.Warburg & CO (AG & Co.) KGaA and the creation of areas of confidentiality. This prevents the exchange of information, which could form the basis of conflicts of interest for Warburg Research in terms of the analysed issuers or their financial instruments.

The analysts of Warburg Research GmbH do not receive a gratuity – directly or indirectly – from the investment banking activities of M.M.Warburg & CO (AG & Co.) KGaA or of any company within the Warburg Group.

All prices of financial instruments given in this investment recommendation are the closing prices on the last stock-market trading day before the publication date stated, unless another point in time is explicitly stated.

M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH are subject to the supervision of the Federal Financial Supervisory Authority, BaFin. M.M.Warburg & CO (AG & Co.) KGaA is additionally subject to the supervision of the European Central Bank (ECB).
