Feedback Investors' Day: D/g to Accumulate with new TP of EUR 114

Last Friday Hypoport hosted its first investors' day in Berlin. Most interesting topic was in our view the new business unit Insurance Platform. The mid-to-long-term revenue potential is significant and we are quite confident that the online insurance marketplace could become as successful as Europace. Based upon the strong Q1 results we have slightly increased our 2018e EPS estimate. We have upped our target price from EUR 100 to EUR 114. As the remaining upside of 11% does not justify a Buy rating anymore we have downgraded the shares from Buy to Accumulate.

✓ Q1 results: Final Q1 results confirmed our positive impression from the preliminary figures. Q1 was a very successful quarter for HYP with an increase of sales by 29% yoy and EBIT up by 30% yoy. The retail business showed a particularly strong performance with an EBIT increase of 37% yoy and the EBIT margin improving by 170 basis points to 16.2%. The unit benefited from a strong mortgage loan business, the recent hiring of consultants paying off. HYP sticks to its 2017 targets of a slight double digit revenues/earnings growth; according to the CEO even a 20% yoy growth would still be seen as slight double digit growth − we forecast revenues growth of 20% yoy and EBIT growth of 15% yoy for 2017e. Net profit was negatively impacted by a higher tax rate compared to Q1 2016. According to the company this was due to normal quarterly fluctuation.

Insurance Platform as mid-term revenues driver: HYP plans to build an online marketplace for the insurance sector similar to what it has done for the loan business. Therefore it has made various smaller acquisitions in 2016/Q1 2017 (NKK Programm Service AG, Maklersoftware GmbH, Innosystems GmbH) to be able to offer insurance policy brokers (and in a second step also insurance companies) an integrated software solution ranging from the document management to the advising of the customers, incl. product comparison. Currently, this integrated software solution is only used by Dr. Klein, i.e. no external customers have yet decided to implement it. This will clearly take some time until HYP will win its first customer.

In order to increase transparency HYP created the new business unit Insurance Platform, which achieved EUR 3.8m revenues in Q1, while EBIT was at EUR -0.1m. Most of the revenues came from the recently acquired companies.

Exhibit 1: Insurance Platform

Source: Hypoport, equinet Research

Revenue Potential: Based upon a total insurance premium volume of around EUR 200bn in the German market HYP sees a market share of 10% as achievable – note that Europace has a market share of around 16% (based upon Bundesbank figures). Assuming a transaction fee of 0.75% (charged on the premium volume) HYP sees a revenues potential of around EUR 150m as achievable. Assuming a similar gross margin like in Q1 '17 for the unit and an EBIT margin (EBIT margin calculated on the basis of revenues less distribution costs) of between 40% and 50% (seen as achievable by HYP) we estimate an EBIT of between EUR 40 and 50m for this unit. HYP believes that this is achievable within the next ten years which we think sounds quite ambitious. We are nevertheless confident that HYP's insurance marketplace will become a similar success like Europace as

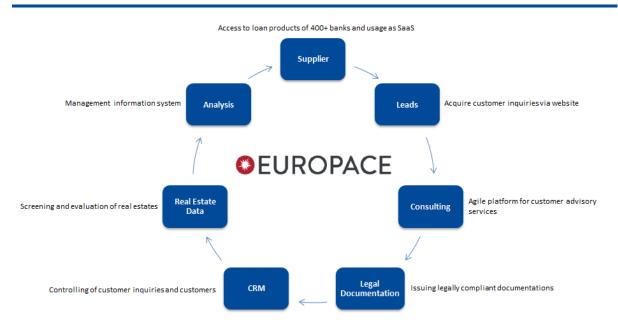

- 1. The insurance industry (both on the distribution and the production side) is under high cost pressure to increase efficiency. Digitalization has only begun for the industry and will be one of the key issues for the industry in the coming years.
- 2. HYP has already proven once with Europace that it can successfully build an online marketplace. Thus it has extensive know-how on the technology/software side but equally important it also knows how to win customers. Through Dr. Klein it has business relationships with most of the important insurance companies and through its recent acquisitions it has gained access to broker networks.
- 3. There are only few players that offer such an integrated insurance marketplace. Most of the players in the market offer only software/IT solutions for specific parts of the value chain, i.e. documentation or the consulting process. Acturis and Finanzsoft/softfair are currently the only ones in the market offering a similar product/service.

Europace – market share should further grow: The CEO stressed once again that the market share of around 2% (as of 12 2016; based upon Q1 figures market share was closer to 3%) with savings and mutual banks, the market leaders in the German Mortgage Market, has huge upside although it is a cumbersome process to get the savings and mutual banks to do more business via Europace. It is relatively easy to get them on the platform but much more difficult to convince them to use it to a larger extent. We see however the low interest rate environment as the key driver for banks to use Europace not only to broker third party mortgage loans but to also to use it to manage the own loan book ("SaaS" = Software as a Service). Banks are under pressure to offset the lower revenue; one lever is clearly to reduce costs. Therefore we expect banks to become more open to use Europace as it should reduce the banks' fixed costs in the mid-term.

Exhibit 2: Europace

Source: Hypoport, equinet Research

Europace has a market share of around 16% in the German market. This figure is based upon the market volume figures, which are published by the Bundesbank on a monthly basis and Europace figures. These figures are however not 100% comparable, the market share figures must thus only be seen as a proxy. Nevertheless we think that it is fair to draw the conclusion that Europace has increased its market share in recent quarters. Note, that the market was stable in Q1 2017 while Europace reported 19% higher mortgage loan volumes, i.e. Europace clearly outperformed the market.

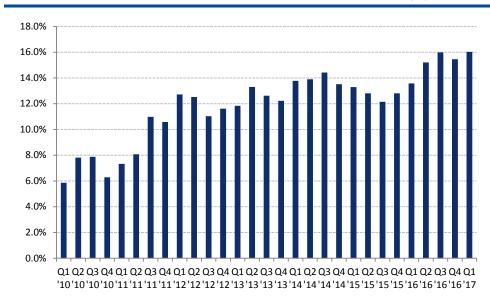

Exhibit 3: Market Share development of Europace in the German mortgage loan market

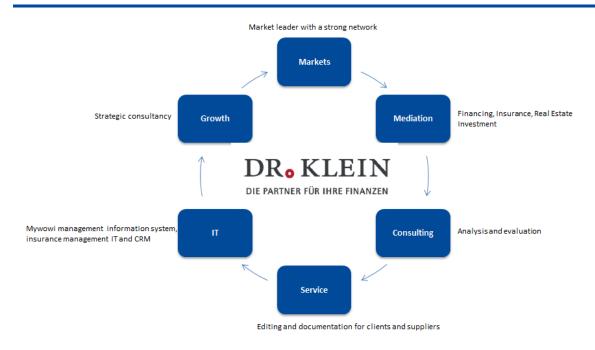

Source: Bundesbank, Hypoport, equinet Research

Retail Customers with strong Q1: Retail Customers showed a good performance in Q1 with an increase of the mortgage loan volume by 23% yoy (consumer loans +24% yoy, home savings +63% yoy) as HYP benefited from the recent hiring of consultants. Yoy the number of consultants has increased by 10% to 524. This resulted in a revenues increase by 24% yoy to EUR 20m and more than proportionate increase of the EBIT by 37% yoy to EUR 3.3m.

Institutional Clients (Dr. Klein Corporate Customers) with further potential: Dr. Klein Institutional Clients is the nucleus of Hypoport. This business unit brokers loans to institutional customers mainly communal building cooperatives. It sees good revenues potential ahead as the public hand has to react to the under supply of housing. Hence, an increasing construction activity should lead to an increased finance demand. In recent years this unit has started to move from the pure brokerage of real estate loans to becoming a consultant for building societies, i.e. Dr. Klein advises its customers how to refinance an existing portfolio or how to finance (e.g. with a classical real estate loan or a promissory note) a new project. This unit is characterized by high margins but also high revenues volatility on a quarterly basis.

Exhibit 4: Institutional Clients

Financials: For 2017e we have increased both our revenue and EBIT forecasts on the back of the strong Q1 results. We have however increased our tax rate forecast as well which offset the increased EBIT forecast, i.e. we leave our EPS estimate unchanged. For 2018e we have increased our EPS estimate from EUR 3.96 to EUR 4.20 as we have become more optimistic regarding both Europace and Retail Customers.

Recommendation: We have increased our target price, which is derived from a DCF Model, from EUR 100 to EUR 114 as we have taken into account the growth prospects from the insurance platform from 2019 going forward. For 2017/2018 the earnings contribution should be negligible but should become more and more important in the years thereafter. As the remaining upside of 11% does not justify a Buy recommendation anymore we downgrade the shares from Buy to Accumulate. With a 2018e PER of 24x Hypoport shares are clearly not cheap and are trading well above the average of other German Financial Services companies (2018e PER: 18x). The good earnings growth momentum (2016-'18e CAGR: 18%) and the good long term growth prospects justify a premium in our view. Hence, we stick to our positive view for the shares: Accumulate, TP EUR 114.

Notice according to § 34 b (German) Securities Trading Act ("Wertpapierhandelsgesetz")

This document is issued by Equinet Bank AG ("Equinet Bank"). It has been prepared by its authors independently of the Company, and none of Equinet Bank, the Company or its shareholders has independently verified any of the information given in this document.

Equinet Bank possesses relations to the covered companies as detailed in the table on the previous page. Additional information and disclosures will be made available upon request and/or can be looked up on our website http://www.Equinet Bank-ag.de

- 1 Equinet Bank and/or its affiliate(s) hold(s) more than 5% of the share capital of this company calculated under computational methods required by German law.
- 2 Equinet Bank acts as a designated sponsor for this company, including the provision of bid and ask offers. Therefore, we regularly possess shares of the company in our proprietary trading books. Equinet Bank receives a commission from the company for the provision of the designated sponsor services.
- 3 The designated sponsor services include a contractually agreed provision of research services.
- 4 Within the last twelve months, Equinet Bank was involved as a lead or co-lead manager in the public offering of securities which are/whose issuer is the subject of this report.
- 5 Within the last twelve months, Equinet Bank and/or its affiliate(s) provided investment banking- and/or other consultancy services for this company and/or it's shareholders.
- 6 Equinet Bank and/or its affiliate(s) has/have other substantial financial interests in relation to this issuer.
- 7 Equinet Bank has entered into an agreement with this company about the preparation of research reports and in return receives a compensation.

Companies of the Equinet Bank group and/or its directors, officers and employees or clients may take positions in, and may make purchases and/or sales as principal or agent in the securities or related financial instruments discussed in our reports. The Equinet Bank group may provide investment banking and other services to and/or serve as directors of the companies referred to in our reports.

In compliance with Para 5 Sec. 4 of the Ordinance on the Analysis of Financial Instruments (FinAnV) Equinet Bank has realized additional internal and organizational measures, such as specific research guidelines, to prevent or manage conflicts of interest.

Neither the company nor its employees are allowed to receive donations from third parties with a special interest in the content of the analysis.

The salary of the research analysts of Equinet Bank AG does not depend on the investment banking transactions of the company. Nevertheless, this does not rule out the payment of a bonus which depends on the overall financial performance of the bank.

Particular care is taken that the individual performance of each research analyst of Equinet Bank AG is not being assessed by a manager of another business division with similar or same interests.

To assure a highest degree of transparency Equinet Bank AG regularly provides - on a quarterly basis - a summary according to Para 5 Sec. 4 No. 3 of the Ordinance on the Analysis of Financial Instruments (FinAnV). It informs about the overall analysts recommendations and sets them in a relationship to those companies, for which Equinet Bank provided investment banking services within the last twelve months. This summary is published via our website http://www.Equinet Bank-ag.de.

Furthermore, we refer to our conflict of interest policy as well as the German Securities Trading Act (WpHG) and the Ordinance on the Analysis of Financial Instruments (FinAnV) provided in the download area of our website http://www.Equinet Bank-ag.de.

ESN Recommendation System

The ESN Recommendation System is **Absolute**. It means that each stock is rated on the basis of a **total return**, measured by the upside potential (including dividends and capital reimbursement) over a **12 month time horizon**.

The ESN spectrum of recommendations (or ratings) for each stock comprises 5 categories: Buy (B), Accumulate (A), Neutral (N), Reduce (R) and Sell (S).

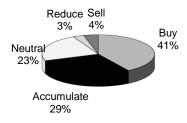

Furthermore, in specific cases and for a limited period of time, the analysts are allowed to rate the stocks as **Rating Suspended (RS)** or **Not Rated (NR)**, as explained below.

Meaning of each recommendation or rating:

- **Buy**: the stock is expected to generate total return of **over 15%** during the next 12 months time horizon
- Accumulate: the stock is expected to generate total return of 5% to 15% during the next 12 months time horizon
- Neutral: the stock is expected to generate total return of -5% to +5% during the next 12 months time horizon
- Reduce: the stock is expected to generate total return of -5% to -15% during the next 12 months time horizon
- Sell: the stock is expected to generate total return under -15% during the next 12 months time horizon
- Rating Suspended: the rating is suspended due to a change of analyst covering the stock or a capital operation (take-over bid, SPO, ...) where the issuer of the document (a partner of ESN) or a related party of the issuer is or could be involved
- Not Rated: there is no rating for a company being floated (IPO) by the issuer of the document (a partner of ESN) or a related party of the issuer

Certain flexibility on the limits of total return bands is permitted especially during higher phases of volatility on the markets
